TEN CENTS PER WEEK

JACKSONVILLE, ILLINOIS, THURSDAY MORNING, OCTOBER 8, 1903.

PRICE THREE CENTS

KANSAS TOWNS WIND SWEPT

PEOPLE KILLED AND PROPERTY DESTROYED.

Alliceville, a Town of Two Hundred, Completely Demolished and Much Damage Done in the Vicinity of Hamilton.

Emporia, Kan., Oct. 7.—Three persons were killed outright, two fatally injured and fourteen others more or less seriously hurt, with enormous property damage, is the net result of tornadoes that prevailed near Hamilton, Greenwood county and Alliceville, Coffey county, Kan., last night. Alliceville, which has 200 inhabitants, was practically demolished. Wires were prostrated and the extent of the storm was not learned until late today.

The dead at Hamilton: Edith Bailey, Mr. Gilham and unknown man.

Fatally hurt: H. Heberly, wife and child, E. S. Manis and wife. At Alliceville and vicinity: Wm. Brue fatally.

Everyone of the fifty houses in Alliceville was either totally wrecked or moved on its foundation. Southwest of Alliceville heavy damage was done to farming property. The farm house of John Earl was torn to pieces and four members of the family injured, none dangerously hurt. Within a limited locality west of Hamilton nine farm houses were destroyed. Many small buildings were turned over and hundreds of stacks of hay and corn shocks scattered.

Omaha, Oct. 7.—The windstorm which struck the eastern portion of Omaha this afternoon blew down a brick wall at the north end of the new Union Pacific shops, burying four workmen, one of whom, A. T. Ratliff, of Lawrence, Kan., was killed, and the other three seriously injured.

BANKER FINED

Sioux City, Iowa, Oct. 7.—Thomas E. Ward, vice president of the Lemars National bank, who pleaded guilty to the embezzlement of \$12,000, was today sentenced to pay a fine of \$12,000 and stay in jail until the amount is paid. It was discovered to day the sentence given Ward will amount to his serving just thirty days in jail. There is a federal statute providing that when a convict is subjected to a fine which he cannot pay he may go before a United States commissioner after serving thirty days, show that he has not property subject to execution in excess of \$30 and obtain legal discharge.

WISCONSIN STORM.

Manitowoc, Wis., Oct. 7.—Thousands of dollar damage has resulted from the storm which has raged here since early last evening, being one of the severest of the season. High seas of Lake Michigan completely wrecked a 600-foot breakwater under course of construction north of the city.

At Tonny, Wis., there was a cloud-burst. The Tonny & Northwestern railway is under water. Business is tied up. Some cattle drowned. Much damage to crops has been done.

CUMBERLAND PRESBYTERIANS.

Decatur, Ill., Oct. 7.—The Illinois synod of the Cumberland Presbyterian church convened in annual session here today. Rev. E. E. Bushnell, of Alton, was chosen moderator. Addresses were delivered by Rev. G. H. Turner, Petersburg; Rev. B. P. Fullerton, St. Louis; Rev. C. E. Hayes, Decatur. To night's session was devoted to missionary work.

SPEAKING IN IOWA.

Red Oak, Iowa, Oct. 7.—John L. Webster, of Omaha, whom the Nebraska Republican convention endorsed for vice presidential candidate in 1904, to night began a week's campaign tour of Iowa. Webster was well received and spoke to a large audience. His address was principally a review of the policy of the United States in the Philippines.

BLOWN UP WITH DYNAMITE.

Sault Ste Marie, Mich., Oct. 7.—A portion of the Algoma Central railroad track near the Consolidated Lake Superior company's brick plant was blown up with dynamite last night. Dynamiters were evidently in too great a hurry to do a complete job. The track was repaired to day with little trouble and trains are running as usual.

MEMBERS OF MOB INDICTED.

Nashville, Tenn., Oct. 7.—The grand jury of Moore county has returned a joint indictment for murder in the second degree against twenty-two members of a mob charged with lynching a negro, Sept. 24.

AGREEMENT REACHED.

Chicago, Oct. 7.—The Typothetae and Press-Publishers' union have reached an agreement under terms of which the striking press tenders return to work tomorrow. The settlement is understood to be satisfactory to both parties.

DIED IN JAIL

Had Been Incarcerated for Eighteen Years Awaiting Trial for Murder.

Oakland, Cal., Oct. 7.—George Jones, who had been in the county jail for eighteen years awaiting trial, just died here, aged 53. He had been incarcerated since 1885 for the murder of Lorenzo Buttle. He was convicted and sentenced to be hanged, but succeeded in gaining a new trial. About the time the trial was to be begun Jones was taken with a stroke of paralysis and had never been able to leave his bed. Time and again the case was set for trial, but continuance was always granted.

A STATEMENT

New York, Oct. 7.—One of the most interesting statements in connection with the formation of the ill-fated United States Ship Building company, told by D. Leroy Dresser in legal proceedings today, was that after a pool of 200,000 preferred and 250,000 common stock had been placed in the hands of Harris, Gates & Co., it was agreed none of this stock should be marketed until 25,000 preferred and 25,000 common, owned by J. P. Morgan & Co., and 75,000 of each kind owned by C. M. Schwab, had been first sold. Dresser told also of his original agreement as president of the Trust Company of the Republic, to obtain the underwriting of \$3,000,000 of the United States Ship Building company stock; how this was increased to \$4,750,000 by failure of French subscribers to pay up; how Schwab came to offer his Bethlehem works to the ship building company and how J. P. Morgan & Co. then came into the transactions.

ROYAL ARCH MASONS

Little Rock, Ark., Oct. 7.—At today's session of the triennial convocation of Royal Arch Masons of the United States the following general grand officers were elected:

High priest—Arthur G. Pollard, Lowell, Mass.
High priest—Joseph E. Dyas, Paris, Ill.
King—William Swain, Milwaukee, Wis.
Scribe—Nathan Kingsley, Austin, Minn.
Treasurer—John Carter, Baltimore.
Secretary—Christopher G. Fox, Buffalo, N. Y.

Captain of host—Bernard G. Witt, Henderson, Ky.
Principal sovereign—George E. Corson, Washington, D. C.

Royal arch captain—Frederick W. Craig, Des Moines, Iowa.

Master third veil—William F. Kuhn, Kansas City.

Master second veil—Bestor G. Brown, Topeka, Kan.

FOOT BALL PLAYER INJURED.

Appleton, Wis., Oct. 7.—Irwin Church, of Menominee Falls, full back on the Lawrence university foot ball team, was seriously injured. In a scrimmage he was kicked on the head and remained unconscious until a late hour to night. It is feared his injuries are serious. In any event he will not be able to go into the game against Wisconsin Saturday.

GRAIN DEALERS.

Minneapolis, Oct. 7.—The Grain Dealers' National association to day elected the following officers: President, H. S. Grimes, Portsmouth, Ohio; first vice president, John W. Snyder, Baltimore; second vice, L. Cortelyou, Kansas. Among directors named were Jay Akins, Nevada, Iowa; H. E. Holliday, Cairo, Ill.; Thomas Forsgren, Manitowoc, Wis., and D. Hunter, Hamburg, Iowa.

IN GOOD SHAPE.

Lincoln, Neb., Oct. 7.—To day's session of the Grand chapter, P. E. O., was devoted to reports of officers and committees. During the past two years charters were granted in Colorado, Illinois and Kansas. The order has increased in numbers and its finances are satisfactory.

THE CANAL TREATY.

Bogota, Oct. 7.—The report of Senator Groun on the canal treaty will be presented to the senate tomorrow. The report will declare the present treaty unconstitutional because of the cession of sovereignty. It is held the present law on the subject is not sufficient unless the constitution is amended. Amending the constitution is such slow process it would mean three years delay.

REPORT DENIED.

Chicago, Oct. 7.—That a general strike of structural iron workers in the United States and Canada is to be called was denied emphatically today by Frank Buchanan, the newly elected president of the United and Structural Iron Workers' union. He also denied the report from Pittsburgh that Daniel Potts had lined up iron workers for a strike in sympathy with the New York iron workers.

Chicago, Oct. 7.—That the iron workers of the United States and Canada are to be called was denied emphatically today by Frank Buchanan, the newly elected president of the United and Structural Iron Workers' union. He also denied the report from Pittsburgh that Daniel Potts had lined up iron workers for a strike in sympathy with the New York iron workers.

ALASKA BOUNDARY TRIBUNAL

ITS LABORS ARE ALMOST OVER.

Argument will End Today and Decision or Disagreement Soon Expected—Americans are very Hopeful.

London, Oct. 7.—By Thursday evening the Alaska boundary tribunal will probably have finished all its labors except pronouncement of the decision. Jacob M. Dickinson, of the American counsel, expects to say the last word in the controversy before adjournment of the afternoon session, after which the commissioners will consider arguments among themselves in private. They are not expected to take long before announcing decision or disagreement. So fully have both sides of the question been threshed out there will be little left to be said when the commissioners meet in private and it is generally believed that if the arguments have had any influence they have already had their effect. Nothing which has been advanced is believed to have weakened the previously expressed views of American and Canadian members of the tribunal. What influence the contentions have had on Lord Alverstone is naturally the chief point of interest and surmise. Unless he sees some reason to disagree with the Canadian case the tribunal can quickly agree or disagree. If the American case has impressed his lordship some interesting private developments are likely to occur, which may delay the decision. In any case the best informed opinion is that some result will be reached within two or three days after Counsel Dickinson has closed his arguments. Americans interested in the case to day expressed, though in a guarded manner, a more hopeful view than they have hitherto held.

A COLLISION

New York, Oct. 7.—The submarine torpedo boat Shark during a trial at Greenvale, L. I., to day rammed the torpedo boat Dahlgren, which, with her crew of seven men, barely escaped sinking. The Shark had been out in the bay making quick dives and headed back for a long spin under water. She went down fifty-eight feet intending to run three and a half miles at the rate of six and a half miles an hour. The watchers on shore were becoming alarmed when she did not appear at the time figured on when she only she arose not twenty feet from the Dahlgren lying at the dock. Her headway was so strong she failed to respond to the effort to reverse her engines and she crashed into the Dahlgren. The latter settled alarmingly, but by covering the gap with a collision mat and the use of steam pumps the water was controlled. An examination showed a hole four feet long had been torn through plates just aft the engine room. The only mark on the Shark was the tearing of paint from her rattle-bow.

A SERIOUS ATTITUDE.

Chicago, Oct. 7.—The Merchant Tailors' Protective association, composed of manufacturing tailors of the country to day declared war on the Journeymen Tailors' Union of America and will hereafter refuse to deal with union journeymen tailors as such. Agreements covering wages and hours are to be made with individual tailors who are graded and paid according to merit ability and skill. The Tailors' union has a membership of 20,000. Demands for increased wages and free workshops have been made by tailors in several cities. In Kansas City and Denver tailors are locked out. Strikes by unions are on in Cleveland and Chicago, and may soon spread to all cities where the Tailors' union has members.

MUNICIPAL LEAGUE.

Baltimore, Oct. 7.—The seventh annual convention of the League of American Municipalities began a three days session here today. The time to day was devoted to welcoming addresses, responses and reports of officers.

Addresses were made by several prominent delegates. Municipal telephones and water works were also discussed. A telegram was read from President Roosevelt, in which he stated that the preparation of his message for congress was occupying his time so exclusively that he could not be present. To night city was brilliantly illuminated with electric lights in honor of visiting delegates.

GUN CLUB SHOOT.

Crandonville, Ind., Oct. 7.—At the close of the first day's shooting of the Crandonville Gun club annual tournament, Charles D. Wagner, of Rome, Ill., was high gun with 100 out of 100.

GIVEN LIFE SENTENCE.

Chicago, Oct. 7.—The jury in the case of the late Mayor Carter, who was shot and killed by a mob, today returned a verdict of life imprisonment for the man who was charged with the crime.

A BAD WRECK

Train Dashes Into Loaded Oil Tanks at Beardstown and Does Great Damage.

Springfield, Oct. 7.—The engine of a Chicago, Burlington & Quincy passenger train, which entered the yards of Beardstown at the rate of twenty miles an hour, left the main track through an open switch and dashed into a string of six loaded oil tanks on the side track. Two oil tanks exploded, setting fire to cars and sheds nearby. The mail car was consumed entirely and the train is almost a total wreck, as it stood in the midst of the flames for hours. The train crew and passengers escaped with slight bruises caused by the shock. Two cars of horses and mules which stood near the exploded oil tanks were wrecked and all the animals killed.

Train service was not greatly interrupted, as the use of another switch nearby soon made traffic possible. A wrecking train was sent at once from the shops at Beardstown and the crew are still at work clearing away the debris.

The engineer and fireman had a most fortunate escape, as the crash came before they had time to realize their danger and only succeeded in extricating themselves in time to escape the explosion that soon followed. The mail clerk was equally fortunate.

SHERMAN A CANDIDATE

Peoria, Oct. 7.—Judge Lawrence Y. Sherman, of Macomb, formally announced this evening that his name would be presented to the next Republican state convention for the nomination as candidate for governor of Illinois.

CHAMBERLAIN'S CAMPAIGN

Glasgow, Oct. 7.—Chamberlain spoke at Greenock to night dealing particularly with questions of retaliation and reciprocity. He said he believed foreign protective countries are prosperous, "because they were better strategists than the British. Their policy as enunciated by the late President McKinley and by the greatest of American statesmen, namely Lincoln, by Bismarck and other distinguished statesmen, had a great deal behind it." In support of his contention that unless Great Britain's policy is changed manufacturers in protective countries would absorb her trade, he cited the enormous output of the United States steel corporation and diminishing home demand and quoted a director of that corporation as saying there was no intention of diminishing the output, but that instead they would invade foreign markets.

"I warn you," said Chamberlain, "that within two or three years you will have dumped here 10,000,000 tons of American iron and thousands of British workmen will lose employment for the sole benefit of American manufacturers and American workmen, but after all I belong to England and I am not cosmopolitan enough to see the happiness and prosperity of American workmen secured by the starvation and misery of the British."

Concluding his general restatement, the speaker said that agriculture in Great Britain was practically destroyed, the sugar trade gone, silk trade gone, iron and wool industries threatened and the same fate would come to the cotton trade. He asked "how long are you going to stand it?" and concluded with the declaration that he trusted the people in this matter; that he was willing to risk his political life in this question and had no fear for the personal result.

CHANGES DATE OF WEDDING.

New York, Oct. 7.—Senator Platt discovered yesterday to his dismay that the date he had set for his wedding fell on Friday. He promptly changed the day.

"Why, I wouldn't be married on a Friday," he said. "You see there was a mistake. The wedding will take place on Oct. 15, not on the 16th, which is Friday." And so the senator will wed Mrs. Lilian T. Janeway, of Washington, at the Collegiate Reformed church, Fifth avenue and Twenty-ninth street, a week from next Thursday, on one day earlier than was first announced.

NO MORE FOOT BALL.

Freemont, Neb., Oct. 7.—Foot ball as a high school game was officially discontinued at a meeting last evening of the board of education. A resolution was passed charging the superintendent and teachers herewith to give it no encouragement. The city has heretofore been represented by one of the strongest teams in the state.

WOMEN DISMISSED.

Port Huron, Mich., Oct. 7.—The women of the Port Huron branch of the Y. W. C. A. were dismissed from the organization today because they failed to make a sufficient number of contributions for the support of the building.

NEW CRANK AFTER PRESIDENT

MAKES EARLY CALL AT WHITE HOUSE.

Was not Armed and Made no Resistance when Arrested—Supposed to be John Decker of Norwich, Conn.

Washington, Oct. 7.—John Decker, a Norwich, Conn., mechanic, aged 44, entered the white house soon after the doors were opened this morning. Officials thought from his actions he was a crank and arrested him. He was not armed and made no resistance.

Norwich, Conn., Oct. 7.—John Decker, who is supposed to be the man under arrest in Washington, has been employed for the last two years at the factory of the Thame's Arms company. The manager of the company said while Decker was peculiar and not considered particularly bright mentally, he never showed any signs of violence.

John Decker, arrested in the white house today because of peculiar actions, has been pronounced insane and removed to the government asylum.

THE TILMAN TRIAL

Lexington, S. C., Oct. 7.—Upon resumption of the trial of J. H. Tillman to day the state rested and defense entered at once upon presentation of its case. T. D. Mitchell, who lived in Columbia in 1892, testified he had a conversation with Gonsales relative to Tillman. The witness said among other things Gonsales said, "I can slap his face and he would not resent it," and he said: "If he ever bats his eyes at me I'll fill him so full of lead he will never tote it off." The witness said he subsequently told Tillman what he stated Gonsales said to him. On cross-examination the witness said he forced the conversation on Gonsales. Several other witnesses for the defense were examined. The general trend of testimony was that Gonsales had threatened to shoot Tillman. Another witness told of having heard Gonsales say that if he did not succeed in defeating Tillman in the governor's office he would never be seated, because he would kill the rascal.

MASONIC GRAND LODGE

Chicago, Oct. 7.—The Illinois grand lodge of Masons to day elected Wm. B. Wright, of Effingham, grand master. Other officers elected are as follows: Deputy grand master—Chester E. Allen, Galesburg. Senior grand warden—Alexander H. Bell, Carlinville. Junior grand warden—A. B. Ashlake, LaGrange. Treasurer—Wiley M. Egan, Chicago. Secretary—J. H. C. Dill, Bloomington.

WASHINGTON WEDDING.

Washington, Oct. 7.—Miss Elizabeth Strong, daughter of Lieutenant General Strong, chief of staff of the army, and Capt. J. R. R. Hammy, of the Twenty-second infantry, were married this afternoon. Among those present at the wedding were President and Mrs. Roosevelt, Miss Alice Roosevelt and Admiral Dewey. Shamokin, Pa., Oct. 7.—Rear Admiral James McQueen Foyhite, U. S. N., retired, of Philadelphia, was married to night to Miss Caroline Adela Helfenstein, of this city.

FLYING MACHINE WRECKED.

Widewater, Va., Oct. 7.—An unsuccessful attempt was made to day to launch the Langley flying machine. The machine went about 10 yards and is a complete wreck. The machine at no time seemed to travel under its own motive power, but went with the momentum it received from the launching power. Professor Manley was not injured, but received a ducking.

NEW YORK POLITICS.

New York, Oct. 7.—All uncertainty regarding the actions of the Citizens' union and Republican organizations on the question of casting about and Fournes from the fusion ticket was removed to night when both conventions reconvened and voted unanimously to re-nounce the nominations for comptroller and attorney general made at the original convention and to nominate instead Frederick W. Harbo, of Buffalo, and E. J. McGuire, of Manhattan.

RETAIL DRUGS.

Washington, Oct. 7.—The retail drug trade in this city is being organized to resist the proposed legislation which would place a tax on the sale of drugs.

A NEW BOND ISSUE.

Chicago, Oct. 7.—Stockholders of the Chicago, Rock Island & Pacific railroad company will hold a special meeting in Davenport, Iowa, to tomorrow with a view of authorizing a new bond issue amounting to \$20,000,000. Discussing the Davenport meeting the Record-Herald to morning will say: "No official information has been given the public regarding the purpose of this gigantic financial deal, but it is generally understood the proceeds are to be used in refunding the bonded debt of all railroad companies which now go to make up the Rock Island system of nearly 20,000 miles. The new bond issue, however, is far in excess of the sum needed for this purpose and is sufficient to provide a sinking fund to be drawn upon, if so desired, for the purpose of additional railroads for betterments and for purposes of offense and defense."

CRAZED BY LIQUOR.

Fueblo, Col., Oct. 7.—While crazed from the influence of liquor Dr. C. O. Rice, one of the most prominent physicians in this city, shot and almost instantly killed Policeman Marx, while the latter was trying to arrest him to night in the Palace drug store. The tragedy occurred after the physician had driven everyone from the store by flourishing a revolver and threatening to kill anyone who came within range. Policeman Slater shortly afterward accidentally shot himself through the pelvis while attempting to effect an entrance into the store. The wounded officer will probably die. For two hours Rice held at bay a big crowd in front of the store. Finally two officers effected an entrance through the fear of the store and overpowered Rice and he was taken to jail.

CHINA MUST MEET DEMANDS

OF RUSSIA FOR EVACUATION OF MANCHURIA

China has Appealed to Japan for Assistance—What the Latest Demands Are Not Known by State Department.

Yokohama, Oct. 7.—According to information received here the Russian minister at Peking, M. Lessar, has informed the Chinese foreign office Russia will never evacuate Manchuria unless her latest demands are granted. China, it is added, has appealed to the Japanese minister, M. Uchida, for Japanese assistance. Japanese residents of Jief-Wie-Ju filed a petition with the foreign office at Tokio asking that a Japanese warship and troops be sent to protect their interests in view of the menacing attitude of Russia. The reply of Japan is not yet known.

Yokohama, Oct. 7.—The press which reported fortification by Russia of Yung-gampho on the Korean bank of the Yalu river, considers this action a possible casus belli, as being an infringement of Korean integrity. The report, however, is not confirmed officially.

Baron von Rosen, Russian minister to Japan, had another conference with Baron Komura, Japanese foreign minister, yesterday. The Japanese premier, Viscount Katsura, had an audience with the emperor the same day. It is now feared the promised concessions on the part of Russia are insufficient to offset her continuous menace to Korea, nor is the Chino-Japanese commercial treaty to be signed Oct. 8 through by adequate to compensate for permanent Russian occupation. A rumor current this evening says definite Russian demands concerning Manchuria and Korea have been presented to Japan by Baron von Rosen.

NO DIRECT INFORMATION.

Washington, Oct. 7.—The state department has not received direct confirmation of the Associated Press information from Yokohama, but officials say they would not be surprised to receive such confirmation at any time from Minister Conger. They say they are fully prepared to believe the news that Russia has served notice on China that she will not evacuate Manchuria until her latest demands are granted. Exactly what these demands are no official of the state department is prepared to say. But the belief is strong that they are practically the same as those reported by the Associated Press from Peking last spring and discovered by the Russian foreign office. It was said to night on the highest authority that this government had reason to believe Russia was insisting on the very demands which Count Lamdorff assured Ambassador McCormick had never been presented and which Count Cassini, Russian ambassador, told Secretary Hay were merely presented as the bases of negotiations. It was stated by the same authority that this government will not feel called upon to enter a protest against Russia's action so long as our commercial treaty, which is to be signed tomorrow, is observed and the two ports in Manchuria promised by Russia remain open to the world's commerce.

RUSSIA'S PROPOSAL.

London, Oct. 7.—The correspondent of the Mail at Kobe, Japan, telegraphs that Baron von Rosen on Oct. 4 presented a note to the Japanese government contending that Japan had no right to interfere in the question of evacuation of Manchuria, which solely concerned Russia and China. The note further proposed a partition of Korea and suggested that Japan should take the southern half and Russia the northern provinces. The note was discussed by the council of ministers Oct. 5 and Marquis Yamagata, commander-in-chief of the army, had consultations with the ministers of war and marine. He Japanese government, add the correspondent, then sent a reply to Baron von Rosen rejecting the Russian proposal. Crisis is possible at any moment.

GOES TO CHICAGO.

Dubuque, Iowa, Oct. 7.—Rev. Frank G. Smith, pastor of the First Congregational church, to day announced his acceptance to a call to Warren Avenue Congregational church, Chicago.

REDUCED PRICE OF GLASS.

Pittsburg, Oct. 7.—Another reduction in the prices of glass used in the manufacture of mirrors has been ordered by the Pittsburg Plate Glass company, taking effect immediately. The cut is approximately five per cent.

GLOVE MAKERS STRIKE.

Chicago, Oct. 7.—Five hundred glove makers struck to day because employers refused to grant the demand for increase of wages.

HURRICANE IN GERMANY.

Berlin, Oct. 7.—A hurricane is sweeping over Germany. Portions of the tower of the new altar hall of Charlottenburg, a church of Berlin, were blown down, trees in parks and forests uprooted and walls of houses and tenement houses were blown down. The storm is expected to continue over the entire country.

TEACHERS' INSTITUTE

Subject: Teaching.

F. A. Johnson, county superintendent of schools, has just issued a circular for the teachers of the county covering various subjects of interest to them. He says in part:

"We believe you realize the extent of the responsibility connected with the work in which you are engaged. In your hands is placed a trust which requires all your best efforts to secure results which we have the right to expect from you. You have plastic material from which may be moulded noble men and women, who shall measure up to the full standard of American manhood and womanhood. This can only be brought about by carefully training the mental, moral and physical natures of our boys and girls. Your opportunity is greater than following out a program of school recitations. It extends into the very lives of your pupils. You may be to them an ideal individual whose teaching, by precept and example, will influence their lives as long as time is theirs.

"A real teacher's influence extends beyond the present term of school, and beyond the four walls of the school room. Good that she sows will bring forth fruit in a higher and better citizenship. A community is made better because she lived in it. It is said in the English marine service that all the ropes of the royal navy were woven in such a manner that a red thread runs through them in a way that no one can unwind it without destroying the ropes. Our influence should be of such a nature that it will so indelibly impress itself upon the hearts of pupils that, let what will come to them, they will stand grand and noble citizens. Let us have high ideals, remembering 'perfection is made up of trifles, but perfection is not a trifle.' I solicit your very best efforts in the work during the present school year, and trust you may fill the full measure of teacher, and not grow weary in the noble work in which you have enlisted. 'No one can ever know what is possible until the untold is attempted through faith.' You will have many discouragements, and an occasional 'blue Monday,' but if you are strong enough to rise above the obstacles that come between you and your worthy desires, you have been made stronger for the battles that are yet to be won. Having confidence in our teachers, I trust this shall be the best year's school work, not only in your district, but in every district in Morgan county.

"Best results are possible by systematizing our work. A careful classification of our pupils should be made because it lessens the number of classes and thus more time is allowed for the recitation. In mixed schools, much unsatisfactory work is due to overcrowded daily programs. Three hundred and thirty minutes divided among thirty recitations gives an average of eleven minutes to each exercise. Music has received much attention in our summer institutes for several years, and many teachers have introduced it into their schools. If you have done nothing in this line, I urge you to try it this year.

"Is your school room tastefully decorated? If it is not it will be helpful to you to devise some way to break the monotony of our bare walls and dusty corners. If you will be the leader in this matter your pupils will be delighted to help you. You are to spend several months in the school room and you ought to make the surroundings as pleasant and homelike as you possibly can. There are yet a few schools in our county without libraries. There are many that have one hundred or more volumes, and will add to this number this year. If you are in a school where this matter has not received attention, can you do any other thing that has in it more value to the community than to place a collection of good books in the school?

"More than 100 teachers in this county did the state reading circle work last year, and passed creditable examinations upon it. At the September teachers' meeting a request was made that the work be continued another year. The request was granted and credit will be given for the work. The Four County Institute will be held in Jacksonville Thursday and Friday, Oct. 29 and 30, 1930. We hope every teacher in this county will be present at this meeting. The law says: 'Time actually spent by a teacher of any public school in this state in attendance upon a teachers' institute, held under the direction of the county superintendent of schools, shall be considered time lawfully expended by such teacher, etc., and no deduction of wages shall be made for such absence. These meetings are intended to give back to each district much more than the price of two days' work in the school room.'

HEIR TO THOUSANDS.

Quincy, Ill., Oct. 7.—Constantine Langebecker, aged 12 years, an inmate of the state soldiers' home, has just received the assurance that he is one of the heirs to an estate estimated at \$250,000. For forty years all of his brothers supposed that he was dead, and that he was still in the land of the living was learned by the accidental accident by his brother who lives in Pittsburgh.

Langebecker was born in Birmingham, Pa., and was a resident of Jersey City when the civil war broke out. He enlisted in Co. G, 1st New Jersey Infantry, and that was the last he was heard from. At the close of the war he was discharged at Pittsburgh.

MASONRY MEETING

The thirty-fourth annual communication of the grand lodge of Illinois Masonic Association, held at the Grand Lodge hall in Chicago, Tuesday morning at 10 o'clock. The meeting was attended by 1,000 delegates. Tuesday's program consisted of a discussion of last year's work and the work of the future. Grand Master George M. Moulton read an address on "The Work and the Progress of Masonry During the Last Year." Several new homes for needy Masons in different parts of Illinois will be suggested and considered. The home for orphans, widows and aged Masons which is nearing completion at Sullivan, will be one of the largest institutions of its kind in the west. When completed it will accommodate nearly 800 persons.

Wednesday, Dr. J. B. McFetrich, grand orator of the lodge, spoke. The Illinois grand lodge of Masons represents a membership of 67,000. The headquarters of the grand master and the various committees are at the Wellington hotel.

A SHREWD SWINDLE.

One of the latest devices of unscrupulous men to catch the unwary is the second hand plan and it works admirably in many instances. They generally select a city of some size and frequently rent a house and furnish it, and then advertise for sale certain articles, especially pianos, at ruinous reductions. They allege the necessity of removing and so will sell for half price an instrument practically as good as new. The sucker calls at the "residence" and is shown the article by the "lady" of the place, who assures him that it cost \$500, but, as they are obliged to move, \$300 will take it, though it is as good as new. If the bait is taken the dealer ships from the factory an instrument worth perhaps \$100 to \$125 and continues the advertisement. Leather covered sofas, whose tops are really leatherette and worth perhaps \$15 are sold for second hand articles of the genuine kind costing several times as much as the thing disposed of. A man once went to Chicago and seeing one of these fake advertisements went to the house and was duly shown a "\$500" piano, which the good housewife assured him was just as good as new, but the health of the father made a removal to the west necessary and so \$225 would take the instrument, provided a man who had paid \$10 on it came back for his money. The latter was well pleased with the piano, but was fearful it wouldn't go into his front door. Soon the aforesaid person appeared and with many regrets said his hallway was so narrow that the instrument couldn't be squeezed through and he should be compelled to ask for his money, although he was much disappointed. The owner gravely handed over the ten and the man from the country felicitated himself on being able to secure so good a bargain and closed at once and received an instrument that would be dear at half the money he paid.

FOR OVER SIXTY YEARS

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25 cents per bottle.

ONLY A VERY FEW PUBLISHED

It is not possible for the proprietors to publish more than a very few of the numerous letters received in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy and telling of its remarkable cures. They come from people in every walk in life and from every state in the union. The following from Mr. T. W. Greathouse, of Prattburg, Ga., speaks for itself: "I would have been lead now but for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me of chronic diarrhoea after seven years' sufferings. I can never say too much in praise of that remedy." For sale by all druggists.

NO REASON FOR IT

When Jacksonville Citizens Show the Way

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back as the annoyance of urinary disorders, the dangers of diabetes or any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Jacksonville citizen says:

F. A. Kaule, of 303 East Independence avenue, engineer at the Davis & Snyder ice plant on North Main street, says: "After being cured myself by Doan's Kidney Pills procured at Dr. H. Lee Hatch's drug store I recommended them to a friend who was suffering severely and a few days after seeing him almost as well as ever he said 'Doan's Kidney Pills are a splendid remedy.' I had such heavy bearing pains in the loins that I could hardly get up and I stooped down to do anything my back felt as if it would almost break before I could get straightened up. Medicine did not do me any good. When I saw Doan's Kidney Pills recommended I made up my mind to try them. I experienced a soothing sensation through the loins after the first few doses and in a short time the aches and pains disappeared."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

One of the devices for cheating by dishonest person is to substitute an inferior article for a good one at a store and make away with it. A jeweler recently showed a brass ring, which had been slipped into the case while being shown a customer and the proprietor failed to discover the fraud in time to detect the thief. A case with rings is always kept full so that the absence of one may be easily detected, but this trick will place the jeweler still more on their guard.

At Rapp's harness shop you will find a full line of the best horse blankets in the country. The "North-ern Ohio" company's make; has no superior; fully warranted. See them. Hundreds sold and all give full satisfaction.

Representatives of Anti-Horse Thief Association in Session

The national convention of the Anti-Horse Thief association opened Wednesday morning at 10 o'clock at the St. Nicholas hotel in Springfield. The convention is composed of twenty-five delegates who represent between 25,000 and 30,000 members of the association, scattered over the states of Illinois, Missouri, Kansas and Indian and Oklahoma Territories. There are some members in Arkansas, but they have no separate representation.

The national convention is held every year and its object is to elect officers, attend to the routine business of the association and make any changes in the constitution or adjustment in matters pertaining to the different states that may be necessary. The sessions are held behind closed doors. The convention was held at Guthrie, Okla., last year. It is somewhat doubtful where next year's meeting will be held, as several places are being discussed. St. Louis may be selected.

The Illinois jurisdiction is represented by but two delegates. Missouri has four, Indian Territory six and Kansas ten. The officers of the national association are: President, Fielding Scott, of St. Paul, Kan.; secretary, J. S. Culbertson, of Sterling, Kan.; vice president, George Dewese, of Prentice, Ill. Among the prominent representatives from the west are James Kirkwood, president of the Oklahoma jurisdiction; J. W. Wall, president of the Kansas jurisdiction, and C. J. Horn, president of the Indian Territory jurisdiction.

The A. T. A. has done a great work wherever it has been organized in the west. In the newly settled parts of the Indian Territory and Oklahoma it is almost as important as the law itself, for cattle and horses are the principal products of the country and every county needs its protection against the men who are always ready to cut fences and stampede the animals on a ranch. The reports at the meeting yesterday showed a great increase of members in the territories and Kansas.

A FINE PIECE OF WORK.

Oscar Faugust has completed the job of placing a metal ceiling in the postoffice and the work speaks for itself. The design is chaste and artistic and all the effects blend harmoniously, showing a master hand in selection, and a high grade of skill in executing the contract. The metal is put on in a manner which shows that the workmen were in charge of a master hand and the whole is a credit to the owner of the building and the man who did the work. Mr. Faugust's shop on North Sandv street, just north of the square, presents a busy scene at all times as the proprietor is generally well-supplied with orders, and when he once has a customer he treats him so that he will want to return.

Boardstown vs. Ill. School for Deaf at Inst. Grounds Saturday Oct. 10. Game Called at 3 P. M.

FOR MISS HAYDEN.

Miss Louise Moore very pleasantly entertained at a luncheon Wednesday afternoon from 2 to 6, given in honor of Miss Clara Hayden. Twelve members of the club sat down to an elegant luncheon. The menu cards were decorated with violets, while the table decorations were all of the same flower. Each guest presented Miss Hayden with a very beautiful piece of china.

Tuesday evening a linen rush was given by Miss Stella Ball in honor of Miss Hayden at the home of Mrs. Lottie Greenleaf on West College street. The occasion was a most pleasant one and the bride-to-be was the recipient of many appreciated presents. Refreshments were served and the gathering was in every way a most pleasant one.

CAUGHT STEALING.

Arthur Jones tried to make a haul from the cash drawer at Hubbard's lunch room on West Court street Wednesday morning, and just as he had extracted \$2 from the till the proprietor walked in on him and Jones made out the door and was hitting the high places down Sandy street when Policeman Deatherage who was standing at the corner, was notified of the steal and set out in pursuit. There was a wild race toward the Wabash railroad and on hearing Russell's lumber yard Thomas Leach got on the trail and hit a "hot foot" after the culprit, whom he overhauled, brought to a stand still just as he was out of the lumber yard. Jones appeared before Esquire and was bound over to await grand jury proceedings. In default of bail he was sent down to be at the county jail until his case is disposed of.

STUDENT RECEPTION.

This evening the Young People's society of Westminster church will serve a free supper to which especially they invite students who have as yet in the city no church home. These young people and their immediate friends will be welcome. Supper will be served at 7 o'clock and a good time will follow. It is hoped a great number of the students will be present.

TO MEET AGAIN.
Mr. and Mrs. Peter Tilton have gone to Liberty, Kan., to visit Mr. Tilton's sister, Mrs. Wilson, whom Mr. Tilton has not seen for twenty-seven years, and whom Mrs. Tilton has not seen since the war. Mrs. Wilson's husband was a surgeon in the army during the rebellion and she stayed with Jacksonville friends while he was at the front. He was quite a successful physician and surgeon until the time of his death some years since. He bore so striking a resemblance to the late President Tanner of Illinois college that when his daughter was visiting here she saw Dr. Tanner at a short distance and at once exclaimed, "There comes papa."
SAVED MONEY HERE.
A lady residing in Chicago was in the city a day or two since and bought of one of our well known business men a high-priced fur garment, at the regular figures of the merchant, and being a good judge of such goods, said she could save considerable money in the transaction over Chicago prices for the same article. Here is an excellent demonstration of the fact so frequently urged by the Journal that it is better to trade at home, and as the winter is coming on this paper would again call attention to the fact that our home merchants are well prepared to supply all needs at reasonable prices.

MR. FISH'S APHORISMS
Society Leader Says America Must Have an Aristocracy.
Where Can I Buy the Best Clothing? You're Looking For It.
The Big Sale
Mrs. Stuyvesant Fish, wife of the president of the Illinois Central railroad, leader of New York's Four Hundred and one of the rulers of Newport's summer colony, declared in a breezy interview at St. Louis the other day that all persons are not equal, that the United States is to have an aristocracy, that the vulgar new rich are invading Newport, that Americans make themselves ridiculous over foreign counts and dukes and that Miss Goelet's family paid \$2,000,000 for the privilege of marrying her to the Duke of Roxburghe, says the Chicago Tribune.
"I should not like to have to eat with negroes."
"I do not believe in equality; it would ruin the country."
"I believe in being too democratic."
"I am older than we, and she is younger without the different degrees."
"I have different kinds of degrees, but all are equal in my eyes."
"I make our social life so stupid that women do nothing but dress senseless. They ought to get a high position in Washington—have the wife of the president looking like that."
"I'm trying to do. I've been for two years. American men do something—that's the Lord gave them brains—one intend to know something about what interests me most, that is politics."
"Wearing of gowns worn by American women. Fish said: 'I think the dress the American women imitate Europe too much. American make just as handsome and as costly as the Parisians, and if some would only start the pace American gowns would be worn.'"
Fish was asked about the defection of Newport as the social hub of the United States. She replied: "I don't think it is declining. True, it is invaded by vulgar new rich people, the parvenu class, but the higher class are still there."
"I don't think people do not run after the money and do not want something out of the way all the time. Expression is a false one and is based solely by the press."
"For instance, Harry Lehr and his function, which is said to have taken place at my cottage."
"I have heard of anything quite so bad in my life. It never occurred, these other stories are exaggerated."
"I just now have been paying too much attention to foreign lords."
"That this country is making a mistake in regard to titles."
"The marriage of Miss Goelet to the Duke of Roxburghe is the latest piece of folly."
"I have \$2,000,000 to do it."
"The duke is not as bad as some people who have married for money."
"I have been married for a year—but that is not foolishness."
Citizens have held many meetings of trust under foreign flags, but a man who is despoiled of a unique one is Joseph of Cedar Rapids, Ia., the United press agent for the Turkey. He is a western man, who has spent many years of the Mohammedan conditions in eastern Turkey, Turkish military States, was led to come for the country. Mr. Morcombe is now old.

was once the owner of a rat terrier named Fritz. The dog could kill a very fat rat, and for that reason was offered from several farms who were troubled with rats in their barns. One summer when we went on a vacation we left Fritz in the care of a colored boy who was to come each day and feed Fritz. The boy proved unreliable and failed to put in an appearance to feed the dog. Fritz gnawed the rope which held him fast and started for the river front.

Next, the river front there are many large warehouses, and most of them abound with rats, which the owners would be very glad to be rid of. Fritz had often taken part in the killing of a rat full of rats from these warehouses, so what he had to earn his dinner was this: He went to the wharf and killed a large rat, and with it in his mouth he went to the rear door of a warehouse and stood before the owner with the rat in his mouth. The merchant was deceived. He thought the rat had been captured in his warehouse, and he gave Fritz a fine dinner, and every day after that until we returned home he appeared at the warehouse with a large rat in his mouth. This was an easy way for a dog to earn his dinner.—Helen I. Trent in Washington Star.

Jamie's Bath.
It was Jamie's bath night. He had several each week, and he hated them all. On this particular night, once started he soaked and splashed in the tub for a full half hour. Then his mother hailed him forth. He came out of the room in his pajamas, with his face all streaked and dirty as it was when he went in. "Mercy," cried his mother. "I thought you took a bath?" "So I did," answered Jamie scornfully. "a bully one." "But your face is black," said his mother. "Oh," Jamie smiled understandingly. "my face is all right. I have to wash that in the morning, bath or no bath. You don't suppose I'm going to waste time blemishing my face! I always begin just below my ears and work down on my arms and legs. But I always leave my face and hands. Those ends I tend to in the morning!"

The Wren's Nest.
I took the wren's nest. Heaven forgive me! Its merry architects so small Had scarcely finished their wee hall That, empty still and neat and fair, Hung idly in the summer air. The money within the dainty door, Where Love should enter and explore And Love sit caroling outside And Love within chirp multiplied. I took the wren's nest. Heaven forgive me!

He Reasoned Well.
Small Elmer had been presented with a toy train of cars and insisted on taking them to bed with him when he retired. "But that isn't the place for cars," protested his mother. "Course it is," replied Elmer, "cause they are all sleepin' cars."—Exchange.

Journalist Discovers the Duke of Roxburgh.
The Duke of Roxburgh, who is the nobleman whom I am to marry. It is to be hoped that the income tax authorities will take note of this statement and will take him accordingly.

Somewhat Incautiously the noble duke preclaims:
I have an estate equal to that of the noble woman whom I am to marry. It is to be hoped that the income tax authorities will take note of this statement and will take him accordingly.

Who is this nobleman who talks easily about "utter rot" to the enterprising representative of the New York World? Let me set forth his proud titles so that the American eagle may scream in triumph over her latest conquest. The gentleman, in question is:
Sir Henry John Inner-Ker, eighth Duke of Roxburgh, Marquis of Bowmont and Camfords, Earl of Roxburgh, Earl of Kintyre, Viscount Broxmouth, Baron Roxburgh and Baron Ker of Camfords and Camfords; in Scotland; Earl James in the United Kingdom and a baronet of Nova Scotia.

That is to say, he is a duke, a marquis, three earls, a viscount, two barons and a sort of a baronet. Let me explain a little more fully the significance and potentiality of these titles. As a viscount Henry John is regarded by his monarch as "our right trusty and well beloved cousin," as an earl he is again "our right trusty and well beloved cousin," and also sometimes "most noble and puissant prince." as a marquis he is "our right trusty and entirely beloved cousin" as well as occasionally "most noble and puissant prince." The reader will notice the distinction between "well beloved" and "entirely beloved." These subtleties are understood in the peerage. Was it not a nobleman who in offering marriage to a lady said he was prepared to marry her "permanently, but not exclusively?" And then as a duke Henry John is his monarch's "right trusty and right entirely beloved cousin," and sometimes, say on bank holidays, "most high, potent and noble prince." I am unable to say what style of address he can claim as a baronet of Nova Scotia, possibly "our right entirely jolly good fellow, which nobody can deny."

Well, there he is, and as he says he has a good estate as May it seems to me that the girl has a young man of whom she need not be ashamed. The Roxburgh family is fairly old, too, as they descend from John Ker, described as "of the forest of Selkirk." This may mean that the original John lived in the forest, and if he squatted near the top of a tall tree he would know all about the "forest of Selkirk," which he had to come down. John was a man of resources, for it is on record that—

He obtained a charter of all the lands and tenements in Auldturnham resigned by John de Copeland, dated "Monday after the Feast of the Purification of the Blessed Virgin, 1287."

It would be unsafe, as well as impertinent, to suggest that Miss Goelet was anxious to secure a duke. The world is full of such suggestions, and indeed she could have had them long ago. I have seen a letter that May has already "tossed up" to the press, and it is a real gem. It is a letter from a Duke of Roxburgh, who has been a Duke of Roxburgh for many years, and it is a letter that May has already "tossed up" to the press, and it is a real gem.

ALL OVER THE HOUSE.

The Danger of "Overdoing" When Furnishing a House.

When the summer wanderings are over the house mother returns to her home full of eagerness to brighten the dull spots and replace shabbiness with freshness. Often new furniture is needed—or a rug seems indispensable or draperies must be renewed, and the absolutely right articles must be selected or the money expended is practically thrown away, as far as beauty is concerned, says Modes.

The charm of a room depends less on the cost of its furnishings than on their careful selection and arrangement. A single piece of furniture, expensive and handsome in itself, may spoil an entire room by its inappropriateness. The most beautiful cabinet of carved Flemish oak would be intolerable in the gold and white daintiness of a Marie Antoinette room, while a gilt cabinet of exquisite workmanship would be cheapened by introduction into an apartment furnished in a massive and solid style.

It is always wiser, unless one has a specially cultivated taste, ample means and wide experience in interior decoration, to choose furniture of simple design. Ornament is often dangerous, as the tendency is likely to be gaudy and showy unless executed by an artist. A beautiful room is one that is restful, conveniently arranged and interesting, not necessarily one full of expensive chairs and ornate (and frequently unnecessary) tables.

READ THIS.
Jacksonville, Ill., Sept. 25, 1902.—Nearly three years ago, with a second attack of serious illness, I was surprised to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's Specific for Kidney and Bladder Troubles, known as A TEXAS WONDER. Less than half of the bottle effected a complete and permanent cure. Consequently I believe it to be a medicine of very great value.

There's nothing better than Scott's Emulsion after the grip. When the fever is gone the body is left weak and exhausted; the nervous system is completely run down and vitality is low.

Two things to do: give strength to the whole body and new force to the nerves. Scott's Emulsion will do it; contains just what the worn-out system needs.

Rich blood, healthy flesh, resistive force, more and better nourishment are what Scott's Emulsion supplies to the convalescent.

Wheat—Chicago, Oct. 7.—Wheat—Everything considered prices were strong, due largely to unfavorable weather in the entire wheat belt, although anticipated to be ed to general apprehensions among shippers. Opening was firm with December a shade to 1/4c higher, at 10 1/2c. With early on his crop estimates, the market covering by shorts the price advanced to 10 3/4c, but later sold off on prospects of more favorable weather to 10 1/2c. Selling pressure augmented by private wire reports of over 10,000,000 bushels for the crop of current year. Commission houses good buyers in late season and the market calmed to about opening figures, December closing 1/4c higher. Liverpool unchanged.

Corn—Corn ruled firm, influenced mainly by heavy rains throughout the corn belt. There was persistent selling by position interests, but shorts were active buyers and there was also some demand from scalpers. The best buying was in December, which showed a fair gain, but the market was not so active, and the early advance, December closed 1/4c higher. Liverpool 1/2c lower.

Oats—Oats were firm along with strength of other grains. There was some selling of shorts, but shorts were active buyers and smaller receipts prevented any decline and close was at slightly higher figures, December being up 1/4c.

FINANCIAL MARKET.
New York, Oct. 7.—The stock market moved in rather better condition today, but declines were not little more than a grinding. By conventional traders the sentiment of the day was one of stock recovery, but in the market brought in some heavy selling pressure, but they were not so serious. Support was accorded the stock, especially preferred, during the rest of the day. Common was forced down by a heavy after-the-hour selling pressure. Market quotations of securities, which were some times 1/4c to 1/2c higher, were not so active. The market was not so active as yesterday, but it was not so bad as the day before. NEVERMORE FOR HIM.
A good story is told of Mr. Lionel Brough, the English comedian. When acting in Edinburgh on one occasion he stayed at lodgings in Castle street which were not particularly comfortable, but when the time came for his departure the landlady produced the inevitable testimonial book and requested him to add to it. Mr. Brough was in a quandary. He wanted to mark his sense of the discomforts he had endured, but to write a condemnatory notice under the very eyes of a theatrical landlady calls for a moral and physical courage which few possess.

Mr. Brough seized the book, dashed off a line and handed it back to the virago, who appeared to be well pleased, though, as a matter of fact, she did not understand the testimonial nor the broad smiles with which subsequent visitors always greeted that particular page in her book.

What Mr. Brough wrote was simply, "I quote the Raven."

Divorce Difficult in Russia.
Divorce is difficult in Russia both by reason of the law's delay and the cost of actions, but the annulment of marriage for informality is simple and easy. In some parts of the empire the marriage service is enacted with this contingency in view. The certificates may be left undated of the ages of the contracting parties omitted. In some parts of Little Russia a relative during the ceremony gives the bride a slap to prove in case of need that she has married under compulsion. Women who succeed in obtaining a separation from their husbands on the ground of informality are received into society, are allowed to marry again and may even be separated again without loss of position.

A Clever Canary.
Remarkable cleverness is sometimes displayed by birds. "I had a canary," said a gentleman, "between the wires of whose cage I used to fix a piece of lump sugar. One day it dropped out and when picked up was found to be quite wet on one side. This surprised me, and I replaced it in the cage, with the dry side inward, and determined to watch the bird's proceedings. After a few ineffectual attempts on the hard sugar the bird went to the water glass, filled its bill, dropped the water on the sugar and repeated this several times. When the sugar was thus softened it began to eat it. Apparently here was thought—a calculation of means and a use of them."

A Blanket Battle.
Once at least the domestic blanket has decided the issue of a battle and led to the complete rout of an army. It was a generation ago, when the Yaku Indians rose in rebellion against the government of Mexico, and the rebels were at last brought face to face with the Mexican army. When the Indians advanced to the attack they sent in advance a covering line of men carrying a bulwark of wet blankets. In vain the Mexicans tried to destroy this barrier with their bullets. Not a single blanket was penetrated, and when the Indians were sufficiently near they emerged from their shelter and, dashing at the Mexicans, put them to ignominious flight.

Between Them.
The late Lord Russell and Sir Frank Lockwood were walking in Dublin with a charming young Irish girl. They were talking of some renowned Irish beauty, when the girl made a disparaging remark about her countrywoman, saying that beauty had died out in Ireland since the English conquest.

"Not altogether," remarked Russell. "I've seen beauty in this country fully equal to any that can be found across the channel. But that, Frank," he added, looking across at his companion, "is between you and me."

GAINED FORTY POUNDS IN THIRTY DAYS.
For several months our younger brother had been troubled with indigestion. He tried several remedies, but got no benefit from them. We purchased some of Chamberlain's Stomach and Liver Tablets and he commenced taking them. Inside of thirty days he had gained forty pounds. He is now fully recovered. Not So Deaf as He Appears.
The presence in Washington of General John H. Ketcham of New York, who is getting in readiness for his sixteenth term of service in the house, has served to revive a good story. He is very deaf, but if this story is true, not so deaf as he appears. In fact, when some one not long ago expressed sympathy for his infirmity he replied that he heard enough as it was. According to the story, a constituent visited him one day, asking for a loan of \$10. "How much did you say you wanted?" whispered Mr. Ketcham in his characteristic way.

"I asked you to let me have \$20," shouted the constituent, his courage mounting upward on the good natured way in which his first request was taken.

"A minute ago you said you wanted only \$10," remarked Mr. Ketcham. And his constituent is still wondering how he found out.—Washington Star.

A Story Not For Poultrymen.
A suburban Philadelphia banker tells this story to illustrate his hens' prowess in egg laying: "Some time ago an egg was left for a nest egg in the place where my hens lay. This nest egg, the other day hatched, and I have now one lonely little chick, which several dozen mothers care for. Here is the explanation of this miracle: My hens are such steady layers that one would no sooner get off the nest egg, having deposited a fresh egg beside it, than another would slip on and in her turn lay. Thus by dozens of different mothers the solitary egg was hatched. Though no one hen sat on it, nevertheless it was kept always warm, and in due time there slipped forth from it a healthy but tiny little chick."

City and County

Mrs. R. R. Mathews, residing east of the city, is ill at Our Savior's hospital.

Mrs. E. E. Martin and niece, Miss Ruth Roach, have gone to Columbus, Ohio, for an extended visit.

Miss Glenn Thompson and Miss Dorothy Thompson, of New York city, who have been visiting at the home of Mrs. Martin Vogel, left for New York Wednesday night.

AT THE GRAND.

"The Little Homestead," a drama in four acts, appeared at the Grand Wednesday evening. There was only a small audience present, but the merit of the performance richly deserved a full house.

The cast was well balanced and the acting throughout excellent, while the individual parts were well sustained. The lines were spoken distinctly and the plot is unfolded in a manner that admits of no delay and the attention of the audience was closely held in each of the four acts. Anne Grey, as Nell Gibson, and Charles Watson as Bill Spots, divided honors with the principals, William Macaulay, Harry Knapp and Miss Walters. J. R. Summer also gave a splendid presentation of the part of the despised cripple. The play is of the wholesome type and was interpreted in a clever manner.

The next attraction will be "A Break for Liberty," Friday night.

POLICE NEWS.

William Crews was arrested Wednesday evening by Captain Kennedy and the night force for operating a gambling house. Three inmates were also taken into custody.

Henry Hughey was arrested by Policeman Ferguson Wednesday, charged with drunkenness.

"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Neck farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these tablets. You are certain to be pleased with the result. Price 25 cents. For sale by all druggists.

SEEK WATER SUPPLY.

Although the Sangamon river runs very near Springfield, the question of a permanent and reliable supply for that city is constantly under discussion. Recently an effort has been made to secure a supply from drive wells along the river. Speaking of the matter the Springfield News says:

"We are now pumping out water at the rate of 125,000 gallons in twenty-four hours," said City Electrician Lanphier this morning, "and our vacuum is a foot and a half lower than when we started. This means that the water in the driven well is rising instead of falling."

"The success that has crowned the effort to find water in the gravel bed under the Sangamon river bottoms for the supply of the city has set manufacturers and others thinking and the result may be the location of several private pumping plants along the river to supply water for different purposes. Ice dealers especially see in it an excellent chance to procure pure water for the manufacture of ice and one well known firm which owns a large tract of bottom land has, it is understood, already made arrangements to sink several wells along Spring creek to supply water for the manufacture of ice both by natural and artificial processes."

WEDNESDAY MUSICAL CLUB.

The annual business meeting of the Wednesday Musical club was held Wednesday afternoon at the home of Mrs. W. H. H. King on West State street. This was reorganization day and matters pertaining to the beginning of the club work for this season were taken up for consideration. The reports of the various committees show the work to be well in hand, and much preparation has been made for the work to be done this year. The course of study outlined for this season by the program committee is one of unusual interest. Following are the dates and the subject for consideration:

Oct. 14—Program of autumn music.
Oct. 21—Chopin: Kjerulf.
Nov. 11—The Nibelungen Ring.
Nov. 25—Wagner's other music dramas.
Dec. 9—Organ music and selections from the Oratorios.

HOLIDAY RECESS.

Jan. 6—Schubert.
Jan. 20—Beethoven.
Feb. 3—Mozart.
Feb. 17—Schumann.
March 2—Italian Opera.
March 16—Brahms.
April 1—Goldmark with choruses from Wagner's operas.
April 15—Russian composers with songs by Rubenstein.
April 29—Program of spring music.
May 16—Saint Saens.

BANK CLEARINGS.

That Jacksonville banks handle a great deal of money will generally be conceded, but it is not fully known how much passes through their hands. The figures of the clearing house are an index, though of course not showing by any means all that goes through the financial institutions of the place. When a customer goes to the bank with which he does business he generally takes with him all the checks he has for deposit. Some of them may be on the bank which he keeps his account and these never find the clearing house nor does the currency deposited, but each bank takes to the clearing house all the checks it has on other banks of the place and the aggregate of such checks for the year ending Sept. 30, 1923, was \$9,578,524.65 and for the year ending Sept. 30, 1924, the total was \$10,775,465.41. This represents a good sum and shows how great a part of the business of the country is conducted without handling any currency whatever.

TRAFFIC DELAYED.

One of the journals on a freight car of train No. 25 of the J. & St. L. broke Wednesday morning just before the train reached this city, delaying traffic nearly five hours. The morning south bound passenger did not leave here until noon and the north bound train was an hour late.

For a pleasant picnic take Chamberlain's Stomach and Liver Tablets. They will keep you in good health.

STORM DOES DAMAGE.

Quincy, Oct. 7.—The rain storm which struck Quincy last evening shortly after 8 o'clock was followed by an infant tornado, which entered the city from the southwest, closer to the river than did the blow of a few weeks ago, and followed a northeasterly course until Tenth and Jefferson streets were reached, when it lifted and went east, striking next at Fourteenth and Jefferson.

In its results the blow last night was not as destructive as the storm of a few weeks ago and no one was badly hurt. While the storm was not as destructive the damage affected a large number of property owners. Houses, barns, outhouses, fences and trees were mixed up in a promiscuous way in a number of localities.

Nauvoo, Ill., Oct. 7.—A tremendous rainstorm struck this city yesterday afternoon, such a one that occurs probably once in a quarter of a century. The streets were flooded, cellars filled and wells overflowed.

About 7:30 p. m. a tornado struck the town suddenly, coming from the southwest. Trees were uprooted and fences and small buildings blown down. Terrific lightning accompanied this destructive storm.

SUFFERS BROKEN LEG.

Beardstown, Ill., Oct. 7.—Leonard Bridges, aged about 21 years, who lives at Belleville, Ill., had his right leg broken just above the knee early yesterday morning while alighting from a freight train.

Bridges and three other young men were beating their way over the C. B. & Q. on a freight train going south and while the train was entering the city the young men got off the cars on the trestle about half way between the bridge and the south end of the trestle. In alighting Bridges made a misstep and fell to the ground below, a distance of about twenty feet, breaking his leg, as above mentioned. He was taken to the office of a physician, where the fracture was reduced. He was put on the noon passenger train and sent home.

ROYAL WEDDING.

Darmstadt, Oct. 7.—In the presence of a notable gathering, which included an emperor, an empress, a king and two queens, the marriage of Princess Alice of Battenberg and Prince Andrew of Greece, was celebrated today, according to the rites of the Lutheran and Greek churches. They will spend their honeymoon at Heilig.

LASTED FIVE ROUNDS.

Omaha, Oct. 7.—In a ten-round bout between Tommy Sullivan, of St. Louis, and Clarence Forbes, of Chicago, featherweights, the latter was put out in the fifth round.

VIOLATED INJUNCTION.

Knoxville, Tenn., Oct. 7.—Several officials of the Mine Workers' union were sentenced today for violating of the injunction restraining members of that organization from trespassing on property on the Tennessee Coal company at Briceville. Among these was F. L. Rice, national organizer, who came from Iowa and who was fined \$400 and given eighty days in jail. He gave bond on appeal to the supreme court.

FOOT BALL VICTIM.

Chicago, Oct. 7.—Gustave Julius Becker, a 16-year-old boy, who was injured in foot ball practice at Lake Forest academy, died today. Becker's back was broken Sept. 18 in a collision with another boy.

A NEW YACHT CUP.

New York, Oct. 7.—Lipton has decided to offer a \$2,500 cup, a perpetual challenge trophy, for which all nations may compete in yachting skill. Lipton desires to put the constructive ability of designers of both old and new worlds to the test and also to try out the seamanship of sailors of all nations in crossing the oceans.

\$4.70 to Cairo, Ill., and return via THE ALTON, Oct. 19. Final limit Oct. 20. Account Illinois Probationers of Wagner's case.

ILLINOIS METHODISM

History of the Organization from Its Inception—A Marvelous Growth.

"Illinois, Benjamin Young." Pretty large appointment, that. Yet that was the appointment in 1803. The first mention of Illinois as an appointment was in 1803, fifteen years before the territory was admitted in to the union; and there was but one charge; it was simply, "Illinois, Benjamin Young."

But the appointment "Illinois" was only a fit sample of the conference, for when Benjamin Young got that command at the western conference in 1803, the conference, formed by Asbury in 1796, included all the outdoors west of the Allegheny mountains, and had less than twenty-six circuits and less than thirty-seven preachers. There were but six conferences and but 296 traveling preachers on the American continent.

In 1801 a class was organized at Edwardsville, a few miles over from the beginnings of St. Louis, sixteen years before St. Louis saw a steamboat and seventeen years before Jesse Walker, with intrepid courage, resolved to plant the gospel in the Romish town. Edwardsville, it may be added, is one of the interesting spots of Illinois, modern with beautiful mansions, but yet breathing still the fragrance of historic associations. Here the first Methodist meeting house was erected in Illinois territory, and near here, in 1817, the first Illinois conference was held, Bishop Roberts presiding.

Illinois conference was organized in 1824. In 1816 it was a part of the Missouri conference; but when it was erected into a conference in 1824 it included Indiana. In 1832 Indiana was separated from it, and it was defined as including the vast northwestern territory. In 1840 the conference was divided and the Rock River conference was set up in connection with a camp meeting on the farm of T. S. Hitt on Pike creek, including northern Illinois, Wisconsin and Iowa. In 1852 the southern Illinois conference was organized. In 1856 the Rock River conference was divided to form what is now central Illinois conference.

In 1825 there were in the Illinois conference, which included Indiana as well, forty-five traveling preachers, with 12,978 white and sixty-four colored members.

There are now in Illinois, not including the Swedish, German and other churches, which we have not time to aggregate and compute, 1,159 preachers, 203,000 members and probationers, 1,844 churches, worth \$9,000,000, and parsonages worth \$1,000,000. Comparing the statistics of 1825 and 1903, trifling over two generations, and by no means exceeding a single life-time, the figures are almost startling.

From Illinois came the movement which resulted in the Central Christian Advocate. It was at Bloomington, Sept. 18, 1850, that the commission was provided for to secure "the establishment of a general conference paper." When the Central was established, in 1852, at least two Illinois men were on the publishing committee and an Illinois man was editor.

And now what has God wrought? Looking over the territory of Illinois we find that the little beginnings sketched above have expanded into four great conferences.

Illinois conference—Preachers in full connection and on trial, 369. Local preachers, 124. Full members, 65,789. Probationers, 2,633. Churches, 576; value, \$2,169,180. Parsonages, 233; value, \$374,360.

Rock River conference—Preachers in full connection and on trial, 327. Local preachers, 191. Full members, 52,418. Probationers, 3,202. Churches, 405; value, \$4,521,450. Parsonages, 190; value, \$495,900.

Southern Illinois conference—Preachers in full connection and on trial, 216. Local preachers, 105. Full members, 39,071. Probationers, 1,787. Churches, 489; value, \$843,740. Parsonages, 158; value, \$157,000.

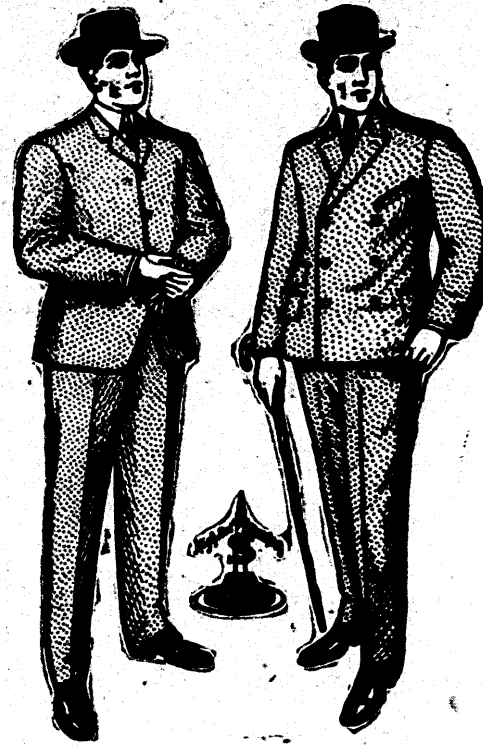

Central Illinois conference—Preachers in full connection and on trial, 247. Local preachers, 93. Full members, 36,143. Probationers, 1,114. Churches, 374; value, \$1,424,050. Parsonages, 180; value, \$281,150.

WHAT IS RE-GO?

Re-Go Tonic Laxative Syrup is a preparation originally put up for physicians' use, and it is still largely prescribed by the best practitioners. Its wonderful cures of Constipation and all attendant evils, such as Nervous Dyspepsia, Sick Headache, Biliousness and Indigestion, have led the manufacturers to believe that a great service would be rendered to their fellow men by offering to the public this famous medicine in convenient form. They have such faith in the merits of the medicine that they offer a trial bottle free to any one who will cut out this notice and present it to Lee P. Abbott, druggist.

A DOZEN TIMES A NIGHT. "I, Olan, of Benton Ferry, W. Va., have had kidney and bladder trouble for years, and it became so bad that I was obliged to get up at least a dozen times a night. I never received any permanent benefit from any medicine until I tried Dr. King's Kidney Cure. After taking a few bottles, my trouble was cured, and I am now a healthy man."

"Don't Go It Blind."

When you are going to spend \$10 or \$20 for a suit or overcoat, consider well how and where you will spend the money to give service combined with comfort and style. Be very careful to avoid having dissatisfaction and disappointment go with your purchase.

Never in past seasons have we showed such a complete line of strictly custom tailored suits as we are now showing for early autumn wear. Garments that are hand made throughout. Collars shaped and set by hand; button holes worked by hand in pure dye silk; lined with best quality serge. These are a few of the many points of excellence we are able to give you at the same price you see on the other kind.
